To Whom It May concern:

It is a great pleasure to recommend Alden Lojistik to the Tender participation for NSPA Cappellen. Alden is currently under contract with Leonardo Aircraft Division in the scope of Meltem3 project for SSB customer operating all the logistic issue between France, Italy and Turkey on behalf of Leonardo.

Few years ago I was engaged for a project co Turkish Aerospace in Ankara and I was looking for a local logistic company with high performance to catch in time the schedule requested by my company and from the final customer. Since from the beginning I was impressed from their efficiency and their positive approach, they can arrange a transportation all around the world and expediting customer clearance based on your needs.

Another quality that I want to highlight it's their availability 24/7 and arrange, when request an urgent shipment very fast with excellent results.

I totally recommend Alden, with no doubts due to their high standard quality and knowledge of their business.
